The proposal for the 2020-21 school year:

Well, last year was certainly an eventful year. But despite the difficulties brought about by the Coronavirus, we were able to conclude the year successfully. We became ZOOM experts, studying English online, experiencing the positive and less positive aspects of distance learning. And we had fun! Considering the success our lessons had last year, I would like to suggest that we organize our lessons in the same way this year. For now our lessons will be online, using the platform ZOOM. When the situation permits, we will meet again in person, face-to-face. Level 1 will have a 1½-hour lesson one week and then the next week level 2 will have a 1½-hour lesson. Of course, all students are free to attend the lessons of the other group. So for those of you that would like to take advantage of both groups, you will have 1½ hours/week. This will certainly help you to grow quickly in your knowledge of English. We will keep the lessons on Wednesday from 15.30-17.00.

Giovanna Flaviani
Insegnante d'inglese
